Confirmation of compatibility
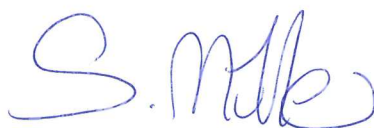

Herewith we confirm the compatibility of the **LANCOM Public Spot PMS Accounting Plus Option** with **protel hotel software.** The interface required for the combination of both systems is listed at protel and is available from protel partners.

The following functionalities were tested:

- Check-in/ check-out of guests as well as the respective PMS notification to the LANCOM Public Spot solution
- Guest authentication to the hotspot via room numbers
- Charging of hotspot usage fees to the room bill

The interface has been integrated into the LANCOM firmware as of **LCOS 8.84**.

This confirmation of compatibility is based on laboratory tests as well as on a collaborative long-term beta installation in the field.
