. . . connecting your business

LANCOM Wireless ePaper Server

Central management of LANCOM Wireless ePaper infrastructures

- Interface (API) for the connection to external calender management and ERP systems
- Comfortable image upload
- Including exemplary images and calendar templates
- Monitoring of online / offline statuses, battery charge level, signal quality, and last tasks
- Available as additive licenses for any installation size

Contents of LANCOM Wireless ePaper Displays are centrally updated via the LANCOM Wireless ePaper Server. It manages and monitors the access points as well as all licensed LANCOM Wireless ePaper Displays. Thanks to the integrated interface (API), e.g. data for room signage can be automatically transmitted from the calendar management system (Exchange, Domino, iCalender) to the respective Wireless ePaper Displays. LANCOM Wireless ePaper Displays can be flexibly designed depending on your needs. Illustrative exemplary images and calendar templates are included, proprietary designs can be uploaded just as easily.

LANCOM
Systems

LANCOM Wireless ePaper Server

Supported operating systems	
Windows	Windows Vista, Windows 7, Windows 8, Windows 2003 Server, Windows 2008 Server, Windows Server 2011 (all 32- and 64-Bit versions) as well as Windows Server 2012 & Windows Server 2012 R2
Linux	Current Linux systems are supported, with the prerequisite of JVM (Java Virtual Maschine)
Scope of delivery	
License key	A license key is included to activate the software with regard to the purchased licenses.
Manual	A quick installation guide is also included.
Functionalities	
Display management	■ Display registration incl. secure key exchange ■ Image upload incl. preview functionality ■ Supoort of templates to define separate fields in an image to be altered individually and automatically integrated into the uploaded image. ■ Support of multiple memory slots (number varies depending on display size) ■ Pre-loading functionality for the switching of contents on multiple displays ■ Displays can be assigned tags to be summarized in groups ■ Display firmware update
Display monitoring	■ Comfortable display monitoring via the display management in LANconfig ■ Status of last tasks, battery status (with warning), and signal quality are displayed
API	The versatile API (web-based) allows the server to be connected to external content management and calender management systems (Exchange, Domino, iCalender).
Security	
Encryption	The communication between LANCOM Wireless ePaper Displays, the E series access point, and the server is encrypted (AES 128).
System requirements	
Hardware	1 GHz processor or higher, 2 GB RAM, 16 GB available harddisk space
Activation	
Product registration	To successfully activate the product a registration on the website www.lancom.eu is mandatory. The registration includes customer information.
Item numbers	
LANCOM Wireless ePaper Server License S (+1 / +50)	Item no. 62201
LANCOM Wireless ePaper Server License M (+5 / +500)	Item no. 62202
LANCOM Wireless ePaper Server License L (+10 / +1000)	Item no. 62203
